

BESOIN :

Création d'une interface web (intranet) à la demande du groupe BNP
PF IT (Groupe où j'ai effectué mon stage)

BUT :

Le Groupe BNP PF IT voulait changer le design de leur interface où il
affichait des fichiers reçus par le client.

Donc j'ai créé une nouvelle interface web.

CODE HTML

```
<table>
```

```
<tr>
```

```
<td>Usine Source</td>
```

```
<td>Fichier<button type="button" id="fichier"><i class="fa-solid fa-wand-sparkles" style="color: black;"></i></td></button>
```

```
<td>Date Add</td>
```

```
<td>Date Maj</td>
```

```
<td>Size</td>
```

```
</tr>
```

« EN-TETE DU TABLEAU »

```
<tr>
